

White Suffolk Breed Aims

HEAD	Hornless, free of wool, face white, long and slightly convex, muzzle moderately fine especially in ewes.
EARS	Large, not carried erect, good length, white and fine texture
EYES	Bright and full
NECK	Moderate to long and well set (rams stronger with a good crest)
SHOULDERS	Smooth. Shoulder blade should be slightly lower than the spine and sloping away to a smooth setting, without excessive movement when walking. Width of shoulders to be less than hindquarter.
BACK	Long, level and firm with a deep, firm, wide and well muscled loin.
LEGS AND PASTERNS	White and placed to give sheep correct balance with flat bone. Woolled to knees and hocks, with clean below with pasterns well set up straight. The forearm should be strong and thick with muscle. Hind legs well filled with muscle.
FEET	Compact.
SKIN	Pink in colour.
FLESH	Firm handling with strong muscle content.
SCROTUM	Good size, well hung, carrying two normal and well developed testicles.
FLEECE	Firm down type wool, dense and firm handling free from kemp medulated and coloured fibre.

Pacesetters in Performance, Productivity, and Profits.
