TAX INVOICE – ABN: 89 020 403 431

RAM PROCESSING FORM – AOB SIRE

This is to be used to record Any Other Breed genetics used within a member stud.

FEE: \$27.50 per AOB sire (incl GST)

Instructions:

- The use of Any Other Breed sires is restricted to those that have a pedigree and are registerable with a recognised breed society, or (by application to and approval by AWSA Council) sheep with a verified full pedigree.
- All “Any Other Breed” sires used in a members flock must be submitted by the member using the AOB genetics for inclusion in the flock book, regardless if the sire is already listed in the AWSA database.
- A full verified pedigree must accompany this form. A pedigree supplied by the vendor / owner of the AOB sire, or a pedigree registration certificate provided by a recognised breed society (should the sire be registered with a breed society), with minimum sire, dam and sire of dam information, constitutes a *verified* pedigree.
- Payment of the \$27.50 (incl GST) Ram Processing Fee must accompany this form. Please retain a copy of this form for your taxation records.

Members are reminded of the following rules when introducing outside genetics to their flocks:

- White Suffolks crossed with Any Other Breed will produce progeny that are Appendix White Suffolks (**WS x AOB = App WS**)
- Appendix White Suffolks crossed with White Suffolks will produce progeny that are White Suffolks (**App WS x WS = WS**)
- Appendix White Suffolks crossed with Appendix White Suffolks will produce progeny that are Appendix White Suffolks (**App WS x App WS = App WS**)
- Appendix White Suffolks crossed with Any Other Breed will produce progeny that are Any Other Breed and are not registerable with the Australian White Suffolk Association (**App WS x AOB = AOB**)

Member Name:

Stud Prefix: Flock Number:

BREED (eg. Poll Dorset)	BREEDER STUD PREFIX	BREEDER FLOCK NO.	YEAR OF BIRTH	6-DIGIT EARTAG	PEDIGREE ATTACHED (please tick)
					<input type="checkbox"/>
Please indicate how you acquired the above genetics:	<input type="checkbox"/> I bred the ram				
	<input type="checkbox"/> I purchased the ram from: Name: Stud: Is the vendor a WS member? <input type="checkbox"/> If bought in partnership with another stud, please list partner flock number and ownership share:				
	<input type="checkbox"/> I was loaned the ram from: Name: Stud: Is the vendor a WS member? <input type="checkbox"/>				
	<input type="checkbox"/> I purchased semen from: Name: Stud: Is the vendor a WS member? <input type="checkbox"/> No. ewe doses:				

PLEASE NOTE: Any progeny of an AOB sire crossed with a White Suffolk must be entered into the WebManager database as an Appendix White Suffolk. It is the member's responsibility to ensure Appendix animals are identified in the flock book and at sale.
