**white
suffolk**
Water by Design

A white sheep is standing in a pen, looking towards the camera. The pen has a metal fence in the background.A white sheep is standing in front of a corrugated metal fence. The sheep is facing the camera and has a clean, white coat. The fence is made of vertical corrugated metal sheets. The background is slightly out of focus, showing some greenery and a building.

It would be a crime to social distance from these rams!
